EDUCATION INFORMATION
Quintile Table & School Drilldown

The **Education Information** section includes a table with the number of schools in the district (or custom region) which fall into each statewide quintile for six measures.

The table below shows the number of elementary schools by quintile for several measures in the report area. The "highest band" always means the best possible result. For example, being in the highest band for 3rd grade ELA Milestones Proficiency means the highest percentage of students scoring proficient or above on the 3rd grade ELA GA Milestones test. Being the highest band of absenteeism means the lowest percentages of students missing more than 15 days of school. Similarly, being in the highest band for Poverty and Out-of-School Suspensions means the lowest percentages of students.

Number of Schools by Quintile in Clayton County	# of Schools in Top Band	# of Schools in 2nd Highest Band	# of Schools in Middle Band	# of Schools in 2nd Lowest Band	# of Schools in Lowest Band
3rd Grade ELA Milestones Proficiency	0	0	6	16	14
Absenteeism	5	4	17	9	3
K-3 Out of School Suspensi... S)	1	4	7	15	11
In Poverty			6	15	17
In Healthy F...				9	8
				15	0

...is as of 2017, except "In Poverty," which is as of 2016.)

1

CLICK on a number on the table to bring up a list and information on the schools within that quintile.

2

CLICK on the icon to download a .csv of the school list and data
